Virtual Employee Pvt. Ltd.

📅 April 2023 - September 2023   📍 Noida,India

- Developed Desktop Applications.
- Worked with the team on design, and development.
- Used Technologies: - Used Technologies: WPF, C#, .NET.

PROJECTS

Desktop Applications

📅 April 2023 - September 2023

- Developed desktop applications by using technologies WPF .Net.
- Made login page of API Test Client and collaborated with the team in designing the build tool.
- Also Implemented MVVM architecture on the same according to the requirement.

SocioDapp

📅 Decemberr 2022 - January 2023

- Social Decentralised Application which does not depends on a server as it is decentralized and can not be controlled.
- It is a social media application based on Blockchain in which I used solidity, JAVASCRIPT, CSS.
- I connected this application to a Goerli test network (an Ethereum wallet) by this when you will post something a transaction will process first and then be posted.
- I tried to give it a look like Twitter but It is highly secure.

Restaurant Locator

📅 October 2022 - November 2022

- A MERN Stack app that finds nearby restaurants in real-time, and also shows the map to that particular restaurant.
- Using only JavaScript and JSON, the MERN architecture made it possible for me to quickly and easily build a three-tier architecture (frontend, backend, and database)
